Citizens' initiative 'Sign against nuclear weapons'

No. 11

MOTION PROPOSED BY THE MEMBER SERVAES *ET AL.*

Proposed on 28 April 2016

The House, having heard the deliberations, considering that article VI of the non-proliferation treaty provides that the parties to the treaty undertake to pursue negotiations on a treaty for complete nuclear disarmament; considering that the House calls on the government, in the motion proposed by Sjoerdsma *et al.* (33 783, no. 19), to take part in international talks on a ban on nuclear weapons; considering that an open-ended working group appointed by the General Assembly of the United Nations in 2015 is exploring new legal and other measures to promote nuclear disarmament; urges the government to devote itself actively, within the open-ended working group, to taking effective measures, including the launch of negotiations on an international ban on nuclear weapons, to achieve a world that is free of nuclear weapons; further urges the government to encourage other member states of the NATO alliance to get involved in these negotiations, and proceeds to the order of the day.
